

D E W I C K
A S S O C I A T E S

NEW YEAR. **NEW WEBSITE.** SAME GRAT SERVICE.

Dewick & Associates are excited to announce the launch of our new website www.dewick.com.

Our goal with this newly designed website is to create a user-friendly browsing experience for our trusted and valued customers and business partners. We hope you enjoy our new uncluttered design that is easy to navigate, and more user-friendly.

We have improved and added some new useful sections such as:

Services – here you will find detailed information about the services we can offer - **Engineering, O&M Manuals** and **Builders Manuals**. Did you know that D&A provide O&M manuals to meet the stringent Government format requirements?

Documents – here you will find information on the process, our current Information Required Checklists and also accounts Information. Let us know if you would like to see any other guides or documents on here.

Projects – Projects are the heart of our and your business, we will continue to update our projects page to showcase the exciting projects we are working on with you, our valued Clients.

Our Team – We are excited to welcome Kath Angus to our team. Kath brings with her a wealth of knowledge from her time working with an electrical contractor on the Gold Coast. Initially, Kath will assist with the coordination and production of final O&M manuals, but as Kath settles into her role, she will become more involved with the day to day delivery of O&M and Builders manuals and broader business functions.

We hope you find the website a useful source of information. We value your feedback so if there is anything else you need, or think would be useful please let me know.

We look forward to hearing from you,

Lou and the team at Dewick & Associates
