PROJECT CASE STUDY: DAW PARK REPATRIATION HOSPITAL

**Government
of South Australia**

SA Health

Project Introduction

The Repatriation General Hospital, South Australia, was built by the Commonwealth Government to care for servicemen returning from World War II.

After years of service to the community and a reorganisation of service provisions, under the SA Transforming Health program, the State Government redeveloped the hospital to provide additional facilities to the community:

- **Ward 5-8:** COVID-19 Facilities
- **Ward 18:** Neurobehavioural Unit
- **Ward 20:** Specialist Adv. Dementia Unit (SADU)

Joe Mac, Project Manager

"Dewick & Associates provide high quality and accurate handover documentation. The process is simple, requires little input from myself and is cost-effective."
