FOCUS PROJECT: MOUNT BARKER HIGH SCHOOL

As a **government funded project**, the upgrade works fell under the realm of the Department of Infrastructure and Transport (DIT). This required project **handover documentation to adhere to the Department's stringent guidelines** in order for practical completion to be sought and achieved. Dewick & Associates were engaged to provide a complete portfolio of handover documents **in-line with DIT format requirements**, comprising:

- * Building Handover Manual
- * Mechanical Services Operational & Maintenance Manual
- * Electrical Services Operational & Maintenance Manual and As Installed Drawings
- * Hydraulic Services Operational & Maintenance Manual and As Installed Drawings

Utilising our **bespoke and detailed tracking system**, the team at **D&A collected and collated supporting documentation** from all sub-contractors working on the project and provided **technical writing services and drafting services** associated with the above.

Stage 1 documentation has been completed and approved. Stage 2 will be submitted during the second half of 2021 to achieve project handover deadlines.
