# DAW PARK REPATRIATION HOSPITAL

## TYRONE ELECTRICAL SERVICES

### Project Introduction

The Repatriation General Hospital, South Australia, was built by the Commonwealth Government to care for servicemen returning from World War II. After years of service to the community & a reorganisation of service provisions, under the SA Transforming Health program, the State Government redeveloped the hospital to provide additional facilities to the community:

- Ward 5-8: COVID-19 Facilities
- Ward 18: Neurobehavioural Unit
- Ward 20: Specialist Adv. Dementia Unit (SADU)

### How D&A worked with Tyrone Electrical Services:

#### Services Provided

- **Electrical Services O&M Manuals** (soft & hard copies)
- **Electrical Commissioning Plan** including detailed **commissioning procedures, Inspection Test Plans (ITPs) & Test Record Templates**
- Full **technical authoring** for electrical services package of works
- Liased with the services contractor to ensure current tech data was collated to enable **detailed bespoke documentation** to be provided
- Provision of **Preventative Maintenance Log Sheets & Fault Finding** processes
