

# FLINDERS UNIVERSITY LEARNING SPACE PROGRAM ENGIE

## Project Introduction

To improve functionality & learning experiences, Flinders University upgraded its law & commerce building with a new trading room in which simulated financial trading can be experienced. The existing fire services systems within the space were modified & extended to accommodate the new architectural changes.

## How D&A worked with Engie:

### Services Provided

- **Fire Services O&M Manuals**
- Full **technical authoring** for fire services package of works for the new Fire Detection System comprising new smoke detectors, thermal heat detectors, new EWIS occupant warning speakers & new remote LED fire indicators for concealed space fire detectors.
- Liaised with the services contractor to ensure current tech data was collated to enable **detailed bespoke documentation** to be provided
- Provision of **Preventative Maintenance Log Sheets & Fault Finding** processes

### Project Highlights

- **Location:** South Australia
- **Value:** \$1.2 Million
- **Discipline:** Fire
- **Fire Contractors:** Engie
- **Principle Contractor:** Built
- **Industry Sector:** Education
