

# THE GLASGOW SCHOOL OF ART – REID & STOW BUILDING REFURBISHMENT ECG FACILITIES SERVICES

## Project Introduction

The Glasgow School of Art (GSA) campus includes the 2013 award-winning Reid Building, the Stow Building & the iconic Mackintosh Building. The Reid building designed by Steven Holl is an embodiment of the fusion of art & architecture. The building has teaching & studio facilities in a high-quality environment to inspire creative education, & research, in the visual disciplines of the 21st century. The Stow Building comprises a wide range of specialist workshops & flexible studio space for undergraduate & post-graduate fine art students & academic offices.

## How D&A worked with ECG:

### Services Provided:

- **Mechanical Services O&M Manuals** in D&A format
- Full **technical authoring** for mechanical services package of works including:
