LIDL WANDSWORTH

HAS ELECTRICAL

Project Introduction

The Lidl Wandsworth store will be located within the popular Southside Shopping Centre & will serve as a flagship for the international retail chain, showcasing modern design, sustainability, & convenience. The 12,200 sq ft store features key environmental features such as energy-efficient lighting & HVAC systems, sustainable, recycled, & eco-friendly construction materials, green roofing, Energy Recovery Ventilation systems, solar panels & water-saving fixtures and rainwater harvesting systems. The building was designed to meet high sustainability standards, achieving a BREEAM certification for its environmental performance.

How D&A worked with HAS Electrical:

Services Provided:

- Comprehensive **Mechanical & Electrical Services O&M Manuals** in D&A & client format
- Full **technical authoring** of the **Mechanical & Electrical Services** package of works including **detailed system descriptions**
- Liased with the services contractor to ensure current technical data was collated to enable **detailed bespoke documentation** to be provided
- Provision of **Preventative Maintenance Log Sheets & Fault Finding** processes
