# STUART LAKE HOSPITAL

## PITT MEADOWS PLUMBING & MECHANICAL

### Project Introduction

The new Stuart Lake Hospital, located in Fort St. James, BC, replaced the existing facility to provide up-to-date essential medical services to the local community & surrounding areas. The hospital features various specialized units including emergency care, eighteen long-term care & nine acute care beds, diagnostic imaging, laboratory, outpatient clinics, operating & procedure rooms, & pharmacy; alongside support spaces such as staff & waiting areas, kitchens, storage & utility rooms.

### How D&A worked with Pitt Meadows:

#### Services Provided:

- **Mechanical Services O&M Manuals** in D&A format & general conditions for Divisions
- Full technical authoring for **Fire Suppression, Plumbing, HVAC & Control** systems package of works
- Liased with the services contractor to ensure current tech data was collated to enable **detailed bespoke documentation** to be provided
- Provision of **Preventative Maintenance Log Sheets & Fault Finding** processes

#### Project Highlights

- **Location:** Fort St. James
- **Discipline:** Mechanical
- **Mechanical Contractor:** Pitt Meadows Plumbing & Mechanical Systems
- **General Contractor:** Graham
- **Industry Sector:** Health

*"Dewick did a great job handling the manuals for several projects for us now. They exhibit professionalism, expediency & quality that helps significantly at the closeout period of the project. I highly recommend Dewick if you are looking to subcontract your manual generation"* **PITT MEADOWS PLUMBING & MECHANICAL SYSTEMS**
