EDWARDSTOWN AMBULANCE STATION

PROJECT HANDOVER MANUALS

Project Introduction

The Edwardstown Ambulance Station, situated within the Repat Health Precinct, Daw Park, is a modern facility designed to strengthen emergency healthcare services in Adelaide's southern region. The station provides essential amenities & accommodates a team of 16 paramedics & 12 Emergency Support Service officers. Key features of the facility include vehicle accommodation, training areas, crew amenities, & operational spaces.

How D&A worked with the contracting team:
